

AMOUNT REQUESTED

250 USDC

For	Website redesign — final milestone payment
Funds released	14 August 2026, 17:00 (GMT+1)
Network	Base Mainnet

How to pay

Open the link below, or scan the QR code with your phone camera. You can pay from any wallet holding stablecoins.

<http://localhost:3000/contract-pay?contractId=abc123def456>

**What is Stabledrop.me?**

Stabledrop.me is an escrow service for stablecoin payments. Rather than paying the seller directly, your payment is held by a smart contract and only released to them on the agreed date below — so you are not sending money into thin air, and the seller is not waiting on a bank. Payments are made in USDC, a stablecoin pegged to the US dollar.

How you are protected

- Your funds are held by an open-source smart contract — not by the seller, and not by us.
- The money is released to the seller automatically on the payout date shown above.
- If something goes wrong, you can raise a dispute before that date to freeze the funds.
- The contracts keep running even if our servers do not. Nobody can seize or reverse them.
